Re: Freedom of Information Act Request EPA-HQ 2016-002676

Dear Ms. Anderson:

This is in further response to your January 11 request for data on imazamox in water, data on imidacloprid in water and copies of peer reviews of both. In a February 1 response, you were provided copies of bibliographies which cited all water-related studies submitted to the Agency for each chemical. You were also provided the link to the Affirmation of Non-Multinational Status Form. As I indicated in our February 1 response, Section 10(g) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) requires that all requesters seeking access to registrant-submitted data must complete the affirmation form.

Enclosed with this response are copies of all Agency reviews/Data Evaluation Records available for the studies cited on the imazamox and imidacloprid bibliographies provided to you in our February 1 response. After reviewing the records provided, if you determine that you require any additional information, please contact me within 5 business days. If we do not hear from you within the time frame specified, we will assume that the information provided to you is satisfactory and your request will be closed.

If you have any questions, please feel free to contact me at (703) 305-6445, or by email at bressant.janet@epa.gov.

Sincerely
